

Beauty • Performance • Value

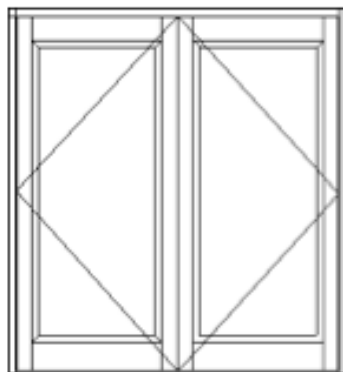

Enviralum™, a new name in high performance entrances and window wall systems. Our products are designed to offer beauty, performance and value. All of our products are pre-fabricated and shop glazed to offer the highest quality and ease of installation.

Our systems are tested to Miami-Dade County Hurricane codes, the highest building standard in the nation. We offer variable glazing options within the product core designs to provide optimum flexibility in aesthetics and performance.

ENV-350 Medium Stile Entrance Door

The ENV-350 medium stile entrance door is well proportioned with the stiles and top rail measuring 3 ½" and the bottom rail 7". Both aesthetics and performance have been considered through multiple hardware options, high design pressures, in swing/out swing configurations and one of the largest panel dimensions in the market.

The ENV-350, with all of it's features, stands alone on top of the entrance door industry. The frame is 1 ¾" x 4 ½" to match the ENV-450 so the two systems work hand-in-hand to complete most commercial or residential fenestration needs.

Product Features & Performance

- Maximum door leaf size 4' x 10' (nom.)
- Maximum Design Pressure +/-100
- Water Rating: 9.75 PSF
- 3-Point locking mechanism by Adams-rite or Regent
- Panic exit devices by Adams-rite, Precision or Regent
- Residential Lever - 3-point locking mechanism by Interlock
- 4 1/2" x 4" ball bearing butt hinges in satin stainless steel by Regent
- Continuous gear hinges by PEMKO & Select Hinges
- 1" diameter aluminum pull handles and push bars
- ADA compliant threshold with bulb gasket
- 1/4" Tempered Monolithic - Non-impact
- 9/16" Heat Treated Laminated - Impact
- 1" Insulated Units - Non-Impact
- 1 5/16" Insulated/Laminated Units - Impact
- White Powder Coat
- Bronze & Clear Anodized
- Kynar is optional
